# THE AI CAREER PLAYBOOK

Choose Your Path, Build Skills & Make Smarter Career Decisions with AI

By Joy Roy

Founder, AI Blog Factory | 2026

## **A Note from the Author**

---

I wrote this book as a strategic advisor. Every technique here was tested in real conditions — as a student, with real deadlines. Nothing here is theoretical.

**Let us get to work.**

-- Joy Roy

# Contents

|      |                      |   |
|------|----------------------|---|
| Ch 1 | The Career Compass   | 3 |
| Ch 2 | Market Intelligence  | 4 |
| Ch 3 | Skill Gap Analysis   | 5 |
| Ch 4 | Strategic Networking | 6 |
| Ch 5 | Decision Frameworks  | 7 |

# The Career Compass

Most students choose direction based on salary or parental advice. Neither is wrong — but neither is complete.

**Three circles — what you are good at, what you enjoy, where the market pays. Find the intersection.**

## 1. The Three Circles

What you are good at + What you enjoy + Where the market pays. The intersection is your direction.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

### QUICK WIN

Try this today: Take one the career compass prompt from this chapter and use it on a real task.

## 2. The AI Audit

Ask AI: 'Based on my skills [list] and interests [list], suggest 5 career paths with salary ranges, demand outlook, and required skills.'

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week

— Note what works and what does not

**ACTION**

Before moving to the next chapter, implement one the career compass technique in your current work.

# Market Intelligence

Which roles are growing? Which are shrinking? Where does AI help vs replace? Data beats opinion.

**High-growth roles: Data Science (+23%), AI/ML Engineering (+32%).**  
**Declining: basic data entry, routine transcription.**

## 1. High Growth

Data Science (+23%), AI/ML Engineering (+32%), Cloud Architecture (+18%), Cybersecurity (+28%).

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

### QUICK WIN

Try this today: Take one market intelligence prompt from this chapter and use it on a real task.

## 2. Stable Growth

Full-Stack Development (+15%), DevOps (+18%), Product Management (+12%).

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

**ACTION**

Before moving to the next chapter, implement one market intelligence technique in your current work.

### **3. Declining or AI-At-Risk**

Basic data entry, simple QA testing, routine transcription, basic graphic design.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

# Skill Gap Analysis

Where are you? Where do you need to be? How do you close the gap?

**Audit your current skills against your target role. AI generates the gap analysis and 90-day plan.**

## 1. The Audit Prompt

'I want to become a [ROLE]. My current skills: [LIST]. What gaps exist? Give me a 90-day plan to close them.'

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

### QUICK WIN

Try this today: Take one skill gap analysis prompt from this chapter and use it on a real task.

## 2. Learning Roadmap

Priority 1: Must-have skills (learn first). Priority 2: Nice-to-have skills (learn second).

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

**ACTION**

Before moving to the next chapter, implement one skill gap analysis technique in your current work.

### **3. Project Proof**

Every skill you learn should produce something tangible. One project per major skill. That is your proof.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

# Strategic Networking

Who you know matters as much as what you know. AI helps you reach the right people.

**The 5-5-5 method: 5 recruiters, 5 professionals, 5 alumni. Message one per day.**

## 1. The 5-5-5 Method

5 recruiters. 5 professionals. 5 alumni. Message one per day.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

### QUICK WIN

Try this today: Take one strategic networking prompt from this chapter and use it on a real task.

## 2. The Message Template

Specific compliment + who you are + specific ask + no pressure. 'I admire your work in X. I am a student learning Y. 15 minutes of advice?'

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

**ACTION**

Before moving to the next chapter, implement one strategic networking technique in your current work.

### **3. Follow-Up**

After helpful conversations: thank them. Update them when you implement their advice. Nurture the relationship.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

# Decision Frameworks

When to take the internship. When to build the startup. When to go for further study vs start working.

**The 3-Month Rule: if you change direction, give it 3 months before evaluating.**

## 1. The 3-Month Rule

If you change direction, give it 3 months minimum before evaluating. Quitting is easy. Persistence is rare.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

### QUICK WIN

Try this today: Take one decision frameworks prompt from this chapter and use it on a real task.

## 2. The Portfolio Choice

When choosing between offers: which teaches more? which has better people? Do not choose on salary alone.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week

- Note what works and what does not

**ACTION**

Before moving to the next chapter, implement one decision frameworks technique in your current work.

### 3. When AI Changes the Equation

If AI can do 40% of a role, the remaining 60% just became more valuable. Specialize in what AI cannot do.

- Start with this technique in your current course
- Practice for 15 minutes daily throughout the week
- Note what works and what does not

## Quick-Reference Cheat Sheet

---

Print this. Stick it next to your workspace.

- 1. The Career Compass
- 2. Market Intelligence
- 3. Skill Gap Analysis
- 4. Strategic Networking
- 5. Decision Frameworks
